

# Accessing your child's school data using Go4Schools

- Teachers at The Excel Academy record your child's assessment scores/grades using a system called Go4Schools.
- Go4Schools records your child's targets in each subject and works out the current grades for each subject based on his or her assessment scores/grades.
- Go4Schools is used to generate the interim reports that you receive from The Excel Academy.
- You can now access Go4Schools from any internet connected device for up-to-date information about your child's progress.

	<p>Go to <a href="http://www.go4schools.com">www.go4schools.com</a> and then click on the <b>Parents</b> icon.</p>
	<p>If this is the first time you have used Go4Schools, type your email address into the 'First-time User' email box.</p> <p>Then click on 'Please send me a password'.</p> <p><i>If you have given your email address to The Excel Academy, you will shortly receive an email with your password for Go4Schools.</i></p>
	<p>Once you have received your password, you can log in to Go4Schools by entering your email address and password in the boxes.</p> <p>You will then see a summary of the data for your child, including timetable and attendance information.</p>
<p><b><i>If you have any queries about the subject data for your child, please contact the Head of Department for that subject.</i></b></p>
